-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 7, 2006 has been entered.

### ***Specification***

2. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

3. The abstract of the disclosure is objected to because line 1 contains the phrase "There is disclosed", which is implied. Correction is required. See MPEP § 608.01(b).

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 47, 48, 57, and 72-80 have been considered but are moot in view of the new grounds of rejection.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 47, 48, 57, and 72-80 are rejected under 35 U.S.C. 102(b) as being anticipated by Kwoh (5,852,478).

Regarding claim 47, Kwoh discloses a method of adjusting recording time of an entertainment program (col. 2, lines 21-55), said method comprising:

selecting an entertainment program to be communicated to a user's premises, said program having scheduled start and stop times (col. 2, lines 21-25),

establishing a start and stop time in accordance with said scheduled start and stop times for recorded said selected program at said user's premises (a predicted start time and the start time plus the expected length of the program equate to a start and stop time in accordance with the schedule, col. 2, lines 21-25),

without action taken by said user, adjusting an established stop time of said established recording time to accommodate subsequent changes in program length (col. 2, lines 50-55).

Regarding claim 48, Kwoh discloses the method of claim 47, wherein said changes in program length occur after the start time of said program (col. 2, lines 47-55).

Regarding claim 57, Kwoh discloses the method of claim 47, further comprising transmitting for recording at said user's premises said selected program in accordance with said established start and stop times (col. 2, lines 47-50).

Regarding claim 72, Kwoh discloses a method for the delivery from a delivery source of entertainment programs for delayed viewing by recipients of said entertainment program, said entertainment program having an unknown length (col. 2, lines 21-55), said method comprising:

establishing a starting time for a particular entertainment program so as to allow for the setting of a recorder at said recipient's premises for recording a delivered one of said entertainment programs starting at said starting time (col. 2, lines 21-25 and lines 39-50), and

communicating from said delivery source to said recipient's recorder a message when the length of said entertainment program becomes ascertainable by said delivery source so as to enable said recipient's recorder to stop recording said entertainment program in accordance with said message (col. 2, lines 50-55).

Regarding claim 73, Kwoh discloses the method of claim 72, wherein said setting of said recorder is under the direct control of said recipient (col. 2, lines 21-25).

Regarding claim 74, Kwoh discloses the method of claim 72, further comprising:

receiving from said recipient listings of entertainment programs desired to be received by said recipient (col. 2, lines 21-25); and

wherein said setting of said recorder is under control of said delivery source based upon received ones of said desired entertainment program (col. 2, lines 34-53).

Regarding claims 75 and 76, Kwoh discloses a method and device for the recording of entertainment programs at a recipient's location, said entertainment programs received from a delivery source, said entertainment programs having an unknown length (col. 2, lines 21-55), said method comprising:

setting of a recorder at said recipient's premises for recording a delivered one of said entertainment programs starting at a time as determined by said delivery source (col. 2, lines 39-50), and

receiving by said recorder a message from said delivery source when the length of said entertainment program becomes ascertainable by said delivery

source so as to enable said recorder to stop recording said entertainment program (col. 2, lines 50-55).

Regarding claims 77 and 79, Kwoh discloses a method for recording TV programs at a user's premises, said TV programs delivered over a plurality of user selectable channels by a delivery source, said programs scheduled to begin at particular times (col. 2, lines 21-55), said method comprising:

setting in a recorder at said user's premises a particular channel and a particular start time corresponding to a program desired to be recorded by said user (col. 2, lines 21-25); and

receiving from said program source a message for use by said recorder to end said recording of said desired program (end time is adjusted for changes in length, col. 2, lines 50-55).

Regarding claims 78 and 80, Kwoh discloses the method of claims 77 and 79, wherein said message from said program source is contemporaneous with the end time of said desired program (col. 2, lines 50-52).

### ***Conclusion***

7. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information
